

Success Story Update: Luke Supported Internships

- Luke began his apprenticeship with Edinburgh Woollen Mill in September 2017
- Luke was offered his internship after doing a six week work experience placement
- Luke's Manager said that he has made great progress and his confidence has grown since starting there
- Luke is completing his retail NVQ with support from Sharon who says she is very pleased with his commitment

"I am much more confident now and love being part of the team, I would definitely recommend the Supported Internship/apprenticeship route to others. I have gained so many skills both from my supported internship and now whilst doing my apprenticeship."

- Luke
