

Client Success Story: James M Supported Internships

- James finished college in 2017.
- His dream was to work as a Hospital Porter.
- Tracey from Enable met with James to speak about what his skills were.
- Unfortunately Tracey was not able to get James a placement at the Hospital so James agreed to look into other options.
- Tracey got James a placement at Holy Cross Residential Home to train to be a Health Care Assistant.
- James is enjoying his placement.
- James helps with laundry, arranges activities for the residents and works alongside the Healthcare Assistants to learn about their roles.
- James is part of a focus group at Enable which helps to improve and raise awareness of Supported Internships.
- James now wants to become a Health Care Assistant and Enable will support him to find paid work at the end of his placement.
